Ruby, Rails, JavaScript, React, Redux, jQuery, HTML, Webpack, RSpec, Python, Bootstrap, Git, SQL, CSS, Babel

>> PROJECTS

Remember The List
Live | Github
Ruby/Rails React Redux

Fast, lightweight single-page time-management web app inspired by Remember The Milk

- Dynamic React component update via AJAX requests and JSON API save render time and server traffic
- Custom built back-end and front-end authentication utilizes BCrypt to protect user's information
- Easy maintenance and scalability with Ruby on Rails database architecture and querying
- Unidirectional flow of data and normalized state built with Redux ensures fast and reliable update of state

Cat-n-Mouse Live | Github
Canvas HTML CSS JS
Front-end browser game

- Object-oriented design implemented with Vanilla JavaScript
- The visual components are built with HTML, CSS and Canvas and sprite animation

>> EDUCATION

App Academy
02/18 New York, NY

- Immersive 1000-hour full-stack web development course with a 3% acceptance rate
- Topics include: TDD, scalability, algorithms, OOP, coding style, REST, security, single-page apps, and web development best practice

Baruch College
12/16 New York, NY

The Zicklin Undergraduate Honors Program

Columbia University
10/15 New York, NY

Bachelor of Arts, Psychology

Relevant coursework
